PROFESSIONAL SUMMARY

Recent Computer Science graduate with strong expertise in Artificial Intelligence, Augmented Reality, and software development. Experienced in building AI-powered applications, integrating secure authentication systems, and delivering user-centered designs. Skilled in managing projects from concept to completion, collaborating with multidisciplinary teams, and creating innovative solutions that enhance user experience. Seeking a full-time position to apply technical skills and creative problem-solving to impactful, high-growth projects. Willing to relocate within Saudi Arabia if required.

EDUCATION

Bachelor of Science in Computer Science, Imam Abdulrahman Bin Faisal University, Jubail Industrial City - Saudi Arabia **09/2019 – 05/2025**

- GPA: 4.18 / 5
- Key modules: Artificial Intelligence, Software Engineering, Data Structures, Operating Systems, Computer Data Security and Protection, Web-based Systems
- Project: Stilo – A mobile application designed as a graduation project that integrates Augmented Reality and Artificial Intelligence to enable virtual clothing try-ons and provide personalized fashion recommendations.

WORK EXPERIENCE

Cooperative Training Intern, Raay Training & Consulting Center, Riyadh - Saudi Arabia **06/2025 – 08/2025**

- Developed and integrated an AI-powered recommendation system into the company website to personalize user experience and improve engagement.
- Integrated a one-time password (OTP) authentication system, enhancing security and user trust.
- Tested and evaluated AI tools for marketing campaigns and training content, documenting usability and limitations.
- Prepared conference materials, including brochures and live demos, contributing to the success of corporate events.
- Improved UI designs in Figma and collaborated with the development team to implement user-centered enhancements.

Data Analyst (Project-Based), Al Emaar Al Mumayaz Co. Ltd, Qatif - Saudi Arabia **01/2025 – 03/2025**

- Built Power BI dashboard and analyzed business data

Web Developer (Project-Based), Happiness Dental Clinic, Qatif - Saudi Arabia **01/2024 – 05/2024**

- Developed website for appointments and patient records using HTML, CSS, MySQL.

PROJECT EXPERIENCE

Stilo– Virtual Try-On App, Jubail Industrial City – Saudi Arabia **08/2024 – 05/2025**

- Built AR-based fashion app with AI-powered recommendations using Unity and Blender.

Sand – University Assistance App, Jubail Industrial City – Saudi Arabia **01/2024 – 05/2024**

- Designed mobile UI in Figma to support student life.

Traffic Congestion Prediction, Jubail Industrial City – Saudi Arabia **08/2024 – 12/2024**

- Analyzed traffic/weather data to predict congestion using ML.

Security Penetration Testing, Jubail Industrial City – Saudi Arabia **01/2024 – 05/2024**

- Conducted ethical hacking using Kali Linux and reported risks.

Network Topology & IoT Fire Detection, Jubail Industrial City – Saudi Arabia **12/2022 – 02/2023**

- Built IoT-based fire detection with network topology design.

KSA Season, Jubail Industrial City – Saudi Arabia **12/2022 – 02/2023**

- Developed a Java app to highlight Saudi tourist attractions.

Gym Database Development, Jubail Industrial City – Saudi Arabia **01/2022 – 06/2022**

- Built gym management system with SQL database integration.

Cinema Management System, Jubail Industrial City – Saudi Arabia **01/2022 – 06/2022**

- Created ticket booking system in C++ with database support.

Halliburton Information System Analysis, Jubail Industrial City – Saudi Arabia **08/2021 – 12/2021**

- Analyzed internal systems and proposed efficiency improvements.

EXTRACURRICULAR ACTIVITIES

Participant, QualyThon , AI Governance Association, Jubail Industrial – Saudi Arabia **02/2025 – 04/2025**

- Built an AI tool for academic report enhancement; qualified as a finalist in the competition.

Volunteer, Computer Science Club, IAU, Jubail Industrial – Saudi Arabia **04/2025 – 04/2025**

- Participated in a tech recycling event to repurpose old computer.

Attendance, Vocal Diversity Workshop, Public Speaking Program, Jubail Industrial – Saudi Arabia **04/2025 – 04/2025**

- Attended a workshop on voice techniques for effective communication.

CERTIFICATIONS AND TRAINING

Power BI Data Analyst, Microsoft, Dammam – Saudi Arabia **04/2025 – 04/2025**
Azure AI Fundamentals, Microsoft, Online (Remote)- Saudi Arabia **05/2025**

SKILLS

- **Technical**
  - **Programming Languages:** Java (OOP), Python, C++, C
  - **Web Development:** HTML, CSS, JavaScript
  - **Data & Analysis:** SQL, MySQL, Power BI
  - **Cybersecurity:** Data Encryption
  - **UI/UX Design:** Figma, Android Studio
  - **AR & 3D Development:** Unity, Blender
  - **Cloud & AI Platforms:** Azure AI Services, Azure Machine Learning, Azure Cognitive Services
- **Soft**
  - Problem-Solving
  - Teamwork
  - Communication
  - Time Management
  - Adaptability
  - Critical Thinking
  - Creativity
  - Attention to Detail

Languages: Arabic (Native), English (Advanced)

HOBBIES AND INTERESTS

- **Designing websites and visual identities**.
- **Exploring AI advancements and practical applications.**
- **Attending tech conferences (e.g., LEAP, GITEX).**
- **Creating user-centered digital experiences.**
